Student currently in my first year of BSc (Hons) Game design and Development at Ulster university. During this course I have already created 2 solo projects and am currently working on a group project. Currently focusing on coding in C#, unity and artwork in relation to game design. Creative designer always looking to make projects unique with an eye for detail, strong teamwork and communication skills.

WORK EXPERIENCE

Poundstretcher/Sales Associate
December 2022-February 2024

I answered and served customers as a cashier, learning how to work as a team with my co-workers and developed strong communication skills through serving customers.

SKILLS

Online communication:
Developed Online communication during my Game Design and Development course and my previous BTEC.

Adept in industry standard communication e.g. Teams and E-mail.

Teamwork:
Developed teamwork skills in previous group projects in the BTEC course and in Previous job in Poundstretcher.

I work well in a group and am willing to take a leadership role, when necessary, such as in my BTEC where I spearheaded the idea and managed the final project.

Technical ability:
I acquired my technical ability through my Game design and Development course and previous work during the BTEC.

I am familiar with and have used many industry standard software e.g. Unity, Unreal Engine, GitHub, the Adobe suite, Office 365 etc.

Design skills:
Developed this skill during my time in education as well as projects worked on in my free time e.g. Artwork, small comic project and editing.

I have used a majority Custom assets in all projects worked.
